

Bike Pump

Bike Pump SV1

Bike Pump SV1 is adapted for use in public spaces. The advantage of this model is its small size, which allows it to be mounted almost anywhere. The construction of this model does not allow the bike to be hung on the grip.

The housing of the device is made of galvanised or stainless steel (AISI 304) profile with powder or thermoplastic coating. The device is mounted to the ground or wall with the aid of anchors. Sheet metal elements of the device are fastened with anti-theft screws.

This model of the station can be equipped with a mobile installation ground plate – hot-dip galvanised. This solution allows you to make the station available during opening hours, e.g. in restaurants, bicycle service points, tourist information. You do not need to mount the station permanently to the ground; instead, you can place it in the mobile plate and fasten it to an existing durable element with a steel rope and a padlock.

- Dimensions: 71 x 20 x 20 cm
- Weight: 9-13 kg
- Up to 2500 cm² of advertising area
- Doesn't allow the bike to be hung on the grip

Technical Data

R&R Item Number	RR103225
EAN / GTIN	7350168260642
Product Type	Bike Pump
Height	710 mm
Length	200 mm
Width	200 mm
Weight	9-13 kg
Advertising Area	up to 2500 cm ²
Color	RAL
Material	Steel
Surface	Galvanised
Mounting Type	Floor or wall mounting
