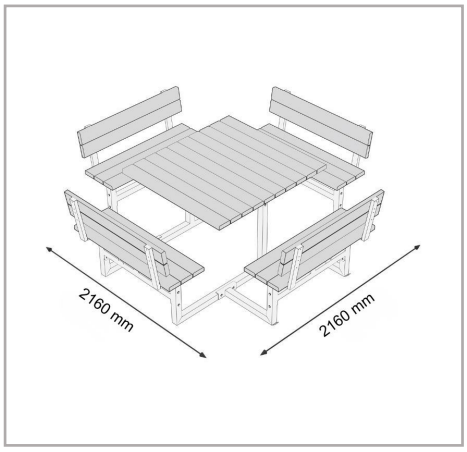
Picnic Tables

Model 960 – Picnic Table with Bolted Frame & Backrests for 8 Persons



Our Picnic Tables are designed to combine durability, comfort, and timeless style, making them the perfect addition to any outdoor setting. Whether for parks, schools, hospitality venues, public spaces, or private gardens, these tables provide a practical and attractive solution for outdoor seating. Available in recycled plastic or premium douglas fir, each table is built to withstand daily use and varying weather conditions. The recycled plastic option offers a low-maintenance, environmentally friendly solution, while the douglas fir version delivers a natural, classic aesthetic. Both materials are paired with a strong galvanised steel frame, available in either bolted or welded construction, ensuring excellent stability and long-term performance. Our range includes 6-seater and 8-seater models, with options for backrests or backless designs to suit different comfort and space requirements. For inclusive environments, we also offer a wheelchair-accessible picnic table, thoughtfully designed to provide easy access and comfortable seating for all users. Each table is engineered for strength, safety, and ease of installation. Bolted versions allow for straightforward assembly, while welded frames provide a seamless, heavy-duty structure. The clean, versatile design complements both modern and traditional outdoor spaces. From relaxed afternoon coffee breaks to lively gatherings with family and friends, our picnic tables create a welcoming setting for shared moments outdoors. Durable, practical, and stylish, they are built to deliver years of reliable use in any environment.

- Seats 8 people comfortably, with space for 2 people on each bench
- With backrests for added comfort
- Made of douglas fir
- Solid galvanised steel frame
- Pressure-impregnated, to protect against moisture and damage to the wood.
- Easy to assemble with bolted parts
