Shelters Solutions

Shelter RL4 Extension Unit – Two-sided

The Shelter RL system is a strong and practical flat-roof shelter made from hot-dip galvanised steel. It is designed to be simple, durable, and easy to use. The shelter is ideal for material storage, bicycle parking, or providing covered spaces for smoking..
The system uses basic units and extension units, so you can make the shelter longer when needed. Side walls and rear walls made of troughed sheet metal can be added to create an open, semi-closed, or fully closed shelter. The metal roof is fixed on three sides and allows rainwater to flow to the rear. Rain gutters and downpipes are available as optional accessories. The Shelter RL is available in roof depths of 2,200 mm or 4,400 mm. Each shelter is supplied as a self-assembly kit with clear and easy assembly instructions. The shelter is also available in RAL color finishes to match your site or building.

- Strong galvanised steel frame
- Durable flat-roof shelter
- One-sided or two-sided design options
- Extendable with extra units
- Optional side and back wall panels
- Supplied as an easy self-assembly kit

Technical Data

R&R Item Number	RR103453
EAN / GTIN	7350168261953
Product Type	Shelter RL
Height	2360 mm
Depth	4400 mm
Width	4300 mm
Weight	300 kg
Clear Height	2175 mm
Clear Depth	4400 mm
Roof Cover	Troughed sheet
Configuration	Two-sided
Europallet Capacity	15 pcs
Roof Style	Flat roof
Profiles Material	Steel
Color	Silver
Surface	Hot-dip galvanised
Base Area	18,60 m²
Max. Snow Load	0,75 kn/qm
Construction	Screwed / assembly kit
