

Shelter RC3 – One-sided

The Shelter RC is a modern shelter with a pent roof. It can be set up in a row and expanded as needed, with single-sided or double-sided options. The shelter is made of strong steel and has a stylish design that fits well in city areas and modern buildings. You can customize it with side walls made of clear glass, privacy screens, or wood. The roof can be made of glass or left open, and it includes a drainage system for rainwater. Finished in durable RAL 7016 anthracite grey, the Shelter RC is both practical and attractive. It is also designed for wheel adjustment as recommended by the German Automobile Club (ADFC) and is perfect for double-decker bike parking also.

The shelter is delivered as a kit for easy assembly on-site. It can be installed on a flat surface, strip foundations, or point foundations. The base is anchored to a foundation constructed on-site with 4 impact anchors per base plate. Hot-dip galvanised and powder-coated in RAL 7016 anthracite grey (standard). Other RAL or DB colors are available as an option.

- Single-sided design
- Steel construction made of canted supports
- Roof sections arranged in a grid
- Customizable side walls
- Can be expanded in a row system

Technical Data

R&R Item Number	RR103238
EAN / GTIN	7350168268563
Product Type	Shelter RC
Height	2486 mm
Depth	2301 mm
Width	4780 mm
Clear Height	2750mm
Column Grid	1500 mm
Roof Grid	750 mm
Roof Cover	Laminated safety glass
Roof Color	RAL 7016 – Anthracite grey
Roof Style	Pent roof
Side Wall Type	Toughened safety glass
Profiles Material	Steel
Profile Color	RAL 7016 – Anthracite grey
Surface	Hot-dip galvanised & Powder coated
Material	Steel
Configuration	One-sided
Max. Snow Load	0,85 kn/qm
Construction	Assembly kit
